FIRST BLIZZARD SWEEPING ALONG

Eastern Slope of Rockies From
Wyoming to New Mexico.

Colorado in Teeth of Gale and Snow
Many Feet Deep—Utah Suffers
Severe Loss.

THE WORST STORM SINCE 1881.

Denver, Col., Oct. 22.—A general storm prevailed along the eastern slope of the Rocky mountains from Wyoming to New Mexico today. Snow fell in Colorado for 24 hours and still continues. Suburban electric lines are operated with difficulty. Railroad trains are delayed.

In the valley around Buena Vista the snow lies two feet on the level. In the mountains the snow varies from two to five feet. Twenty-two inches of snow is reported at Florence.

In northern Colorado the snow is 20 inches deep. Should a freeze follow there will be heavy loss to the potato crop.

Worst Since 1881.

Albuquerque, N. M., Oct. 22.—The worst blizzard since the great storm of 1881 was general throughout New Mexico last night, a high wind bringing a general snow and sleet storm throughout the Grand Valley. Reports indicate heavy losses to sheep growers. The telegraph and telephone lines are almost paralyzed.

Salt Lake City Suffers.

Salt Lake City, Utah, Oct. 22.—For 24 hours this vicinity was swept by a wind storm of unparalleled severity. Three serious accidents to persons occurred. Property over a wide area was devastated. Fire fanned by the wind obliterated the new plant of the Utah Packing company. The monetary loss is approximately \$250,000. Trains arrived with irregularity or not at all.

Heavy Loss at Ogden.

Ogden, Utah, Oct. 22.—One man was killed and \$100,000 worth of property was destroyed by the heavy wind storm of last night and today. William Gibbs was struck by a flying plank and killed. A Catholic church was damaged and other large buildings suffered. Trains between Ogden and Salt Lake City have been stalled since last night.

Snow in Minnesota.

Duluth, Oct. 22.—Snow six inches and more deep fell last night in northeastern Minnesota, covering the Vermillion and Mesaba ore ranges.

Paducah Will Feel It.

The weather man says the tail end of a western storm will sweep Paducah in the face within the next 30 hours. And the tail will be wet and cold. The storm has started down the east slope of the Rocky mountains where one of the worst blizzards in years is in full blast. Every indication points to a winter of great severity. Earlier than last year, snow, blizzards and storms have opened their campaign. In Paducah, the coal situation may become acute, and it is possible that the cold head-of-the-house will find few oysters in his hot soup, when he comes in to thaw out.

MEMORIAL EXERCISES.

Impressive Services in Memory of
Mrs. Jefferson Davis Yesterday.

Under the auspices of the United Daughters of the Confederacy services were held yesterday afternoon at the Broadway Methodist church in memory of Mrs. Jefferson Davis. The Rev. T. J. Newell and Col. R. J. Barber spoke. Miss Scott sang and Mrs. R. W. McKinney, state president, read a character sketch of Mrs. Davis.

Killed at Lexington.

John Tulley, 62 years old, of Lexington, Tenn., was killed Saturday at the N. C. & St. L. depot at Lexington, Tenn., by a switch engine and a cut of coal cars. The engine was coming down the coal chute and Tulley was trying to cross the tracks. He was not quick enough. His body was horribly mangled. He leaves a wife and three children.

PLAN TO DISCUSS EMIGRATION

Rome Papers Say United States Has
Proposed Big Conference.

Rome, Oct. 22.—Several newspapers here assert that the United States again has proposed an international congress to discuss the question of European emigration to the United States to be held in Washington in 1907. The papers add that Great Britain, France, Austria, Russia, Italy, Denmark and Holland have agreed to send delegates.

SUNDAY SCHOOL

INSTITUTE OF THE CHRISTIAN
CHURCH AT FULTON.

Many Prominent Men of State Are on
The Program—J. K. Bondurant
to Attend.

There will be a gathering of the workers of the Christian church at Fulton, Ky. on November 1 and 2 to discuss the Bible school and its varied interests. Robert W. Hopkins, of Louisville, state Sunday school evangelist, will have charge of the meetings. Pres. G. A. Lewellen, of West Kentucky College, Mayfield; J. K. Bondurant, Paducah; R. O. Hester and R. L. Clark, Mayfield; G. H. C. Stoney, of Murray; D. W. Campbell, of Wickliffe; C. E. Moore, of Clinton, and G. W. Gregory are among the speakers. All Sunday school workers are invited. Free entertainment. Address Elder J. C. Reid, Fulton, Ky.

GOOD DRIVING

AVERTED ACCIDENT TO CHEMICAL
WAGON OF CO. NO. 3.

Tom King, on the Seat, Saw Wagon
in Middle of Street and Missed
It By Narrow Margin.

Tom King, driver of the chemical wagon of fire company No. 3, Tenth and Clay streets, and several members of the fire company narrowly escaped serious injury at 4 o'clock this morning while answering an alarm to Twelfth street and Broadway. By great presence of mind on King's part and quick action in handling the lines, the accident was averted and it saved the chemical wagon from a general smashup.

When the alarm came in the horses were driven south on Tenth street. At a point between Harrison and Madison streets King saw a heavy wagon suddenly loom up before him. The wagon was standing in the middle of the street, where it had been left by the driver. The fire wagon was right upon it and King had but little time to think.

Jerked his horses suddenly aside he ran into the gutter. There was a crashing sound as the hub of the chemical wagon struck the standing wagon and King continued his drive.

The chemical wagon was but slightly damaged, and the matter was reported to the police who are investigating the case. King stated that no lantern was set out as a warning.

LETHARGY

EXISTS POLITICALLY IN SOME
WESTERN STATES.

Believes People Are Contented and
Little Interested in Agitation
of Campaign.

Washington, Oct. 22.—Never saw such lethargy," said Secretary Shaw, who dropped into Washington over Sunday, discussing the political situation in the some western states, in which he has been campaigning. "Never was such condition," he said. "Can't tell whether it applies to Republicans alone, but think it does not. I guess it's because the people are contented."

Thrown From Vehicle.

George Snyder, a farmer of St. Johns, was thrown from his vehicle yesterday when his horse frightened at an automobile in which County Judge Lightfoot was riding, and sustained a broken arm. He is also suffering from concussion. Dr. Jeff Robertson, who is attending him, believes he will recover.

RUSSIAN CRISIS ONE OF FINANCE

No Loans Offered Without
Approval of Douma.

This May Lead to Conferring of Un-
usual Powers and Freedom on
the Body.

WITTE MAY BE CALLED BACK

St. Petersburg, Oct. 22.—An extension of the powers of the douma, granting it a decree of independence never dreamed of in Russia is made necessary by the financial crisis faced by the empire. This information comes on highest authority. The recall of Count Witte to power may also come, in the belief he is the only man who can avert the calamity impending over the country. Russia today is almost face to face with bankruptcy. Foreign nations will only agree to another loan on condition of its approval by the douma.

The Czar's Coup.

The government has thrown a bomb into the Radical camp in the form of an interpretation by the senate of doubtful points in the election laws, declaring that only actual resident house owners are eligible to be peasant electors at the coming elections. Persons of peasant origin, who are no longer residents of the villages are ineligible to vote. This will exclude the educated leaders of the peasant group, like Alladin, Aniknin and Zhilkin, who, under the old system, abolished by yesterday's ukase, were considered to be peasants, no matter how long they have been absent from the paternal village.

FIELD

WORK RECEIVED IMPETUS BY
MEETINGS YESTERDAY.

Rally at the Presbyterian Church for
Teachers—Graduates at Broad-
way Methodist.

The Rev. T. C. Gebauer, field worker for the State Sunday School association, spent Sunday in the city. He preached at the German Evangelical church in the morning and at night delivered an illustrated stereopticon lecture on "Christ's Work and the Lord's Prayer" at this church.

In the afternoon a Sunday school rally was held at the First Presbyterian church addressed by Mr. Gebauer.

Tonight at 7:30 o'clock Mr. Gebauer will give a stereopticon lecture at the Hebrew church in Rowlandtown.

"Children's Day."

Children's Day exercises were held yesterday morning at the Broadway Methodist church. The program was an attractive one and the pupils of the primary department took part in the music and recitation features. The church was prettily decorated with plants and flowers.

An interesting feature of the service was the graduating exercises held in closing. Miss Lucila Smith's class of twenty-one pupils was graduated from the primary department into the intermediate grade of the Sunday school, having completed all the required primary work. In the class were: Katherine Felch, Annie Belle Clinard, Gladys Warfield, Mary Brown, Tillie Bauer, Maud Bush, Nellie Love, Louise Bonds, Lillie Bonds, Mart Smith, Harry Dalton, Nolan Terrell, Louis Lee, Millard Lee, William Phillips, George Bryant, Clyde Burnham, Clyde Baker, Charlie Rhodes, Hall Rose, Bernard Woolridge, Weeks Smith.

Mr. Matt Carney returned to Chicago Sunday night after a visit to his mother, Mrs. M. Carney.

It is the daily average circulation of a newspaper that the shrewd advertiser investigates—"High Water" days don't count. The Sun's daily average last month was 3939.

TAX BOOK SUPERVISORS

Will Meet Wednesday at City Hall to
Hear Complaints.

The board of tax supervisors will meet Wednesday at the city hall. Mayor Yeiser recently appointed James Glauber to fill the vacancy caused by the death of the late R. G. Caldwell. The board is now composed of Richard Holland, Eli G. Boone and James Glauber. There are several complaints of over-assessment to come before them.

SNAKE DEN

MAY BE LOCATED UNDER CA-
BOOSE DEPARTMENT.

Eddie Bralich Kills Second One Which
Crawled Through Hole in
In the Floor.

It is believed a den of water moccasins is located under the floor of the caboose department of the Illinois Central railroad shops. Two have been killed there in a week. Eddie Bralich, assistant to C. E. Aker, who operates the air valve tester in the caboose department, stooped to pick up what he thought was a rubber imitation snake, but at the touch of his fingers the snake wriggled away and tried to reach a hole in the floor. Mr. Bralich killed it.

Water is standing under the shops and this, it is thought, has produced a safe breeding place for water moccasins.

BIG COMBINE

PACKING FIRMS SAID TO BE
ABOUT TO AMALGAMATE.

Chicago Paper Says Sir Thomas Lip-
ton Is Connected With Pro-
posed Deal.

Chicago, Oct. 22.—The Evening Post today prints a story to the effect that a gigantic combination of packing industries in this country is under way. No person connected in any official capacity at any of the large Chicago packing houses could be found who would confirm the story.

The story is to the effect that the combination is to have an aggregate capital of \$500,000,000, and to be controlled from England. It is declared that the American interests are to dominate the consolidation and that it will include the following concerns in this city: Armour Packing company, Swift & Co., Nelson-Morris & Co., National Packing company, Schwarzschild & Sulzberger, and the Cudahy Packing company.

According to the Post the prolonged stay of Sir Thomas Lipton in this country is connected with the alleged consolidation.

SAYS HE WAS HELD UP.

The Horses Drive Over Fill and the
Cab Wrecked.

Gus Nolen, colored, driver for the Long Cab company, was injured Saturday night while driving over the fill being made between Fourth and Sixth streets on Caldwell street. He drove over the sides of the fill and the cab was wrecked, one horse killed and Nolen pinioned under the wreck. He is seriously injured. Nolen claims that some unknown man held him up and demanded a ride. He states that the stranger took the lines and drove over the fill.

BUSY WEEK PLANNED.

Hearst and Hughes to Return to
Their Hard Fight.

New York, Oct. 22.—The heads of the state tickets rested in this city yesterday in preparation for a week's campaigning that promises to be a severe test of physical endurance. If half the program planned for them is carried out Mr. Hughes will hurry away in the afternoon for another invasion of the upper state. Mr. Hearst, who, like Mr. Hughes, returned from an up state trip early today, will devote his energies this week chiefly to New York City.

Too Fat; Takes His Life.

Louisville, Oct. 22.—Because his weight, 300 pounds, hampered him in making a living, Richard Donison, committed suicide with carbolic acid in New Albany.

KILLED THE WOLF WITH ONLY A CLUB

Will James Has Terrible Bat-
tle In The Road.

Encounters Wounded Animal Pur-
sued by Posse of Citizens and
Is Almost Overpowered.

BELONGS TO GRAY SPECIES.

After battling for ten minutes with nothing but a heavy plank for defense, Will James, a well known young man of West Tennessee street, killed a gray wolf which had caused such great excitement in that section of the city for the past several weeks. It was a battle royal, and although the wolf was wounded in the shoulder, carrying the contents of a double-barrel gun in his body, he put up a great fight. James dealt blow after blow, and several times the wolf seemed to have the upper hand. When neighbors came to his rescue James was almost exhausted.

Several weeks ago valuable dogs were found dead by their owners. It was attributed to a wolf, residents claiming to have seen the beast. Several weeks ago a negro pedestrian going home with meat was attacked by the wolf and the meat snatched from his hand. Residents were awakened at night by the appearance of the wolf in their chicken coops, and on several occasions shotguns were brought into play with no results.

Yesterday morning W. R. Davis, of Twenty-ninth and Tennessee streets went out into his back yard to feed his chickens. He saw a gray object at his back gate. He recognized the wolf. He had no gun but picked up a board and started after the beast. The wolf calmly eyed him, never venturing to move until Davis got within three feet. With a sudden leap he made for Davis and the plank gave out at a resounding whack as it struck the wolf full in the side. This served to start it running.

The route led towards the city, down Tennessee street, and the news spread. The beast was headed off and started back. A crowd followed and the wolf for the second time made for Davis' back yard. Emmet Davis, 19 years old was waiting with a double-barrel shotgun. He let go with both barrels and was knocked backwards by the rebound. The wolf received both barrels in the shoulder. It snarled and made for the woods.

Will James was coming along with a board, hearing the shot and stories of the wolf's reappearance. The beast jumped at him and James dealt it a blow in the side. He fought for some time, and just as the crowd which followed the wounded beast arrived, James dealt the fatal blow, striking the animal in the head.

The wolf's teeth are long, some over an inch in length. He is not large, but agile. Some claim he is half wolf and half dog, but those who have seen wolves claim he is genuine.

The carcass will be presented to County Judge R. T. Lightfoot today, and the bounty of \$5 claimed. This is the amount fixed by law for the death of any carnivorous wild beast. It is the second wolf to be killed in this county within the year the first being killed near Woodville several months ago.

FIRE IN PARLOR.

Causes Loss of Furniture in Boarding
House.

Fire was discovered in the parlor of Mrs. Sarah E. Hudson's boarding house, 1148 Broadway this morning at 4 o'clock. Fire companies Nos. 3 and 4 answered the alarm and used the chemical engine. One tank was sufficient to extinguish the blaze. The carpet and piano were damaged. The origin of the fire is unknown. The loss is about \$100 and covered by insurance.

BIG GRAIN ELEVATOR FOR L. & N. RAILROAD

Will Have Capacity of One Hundred And
Fifty Thousand Bushels—Lar-
gest In Section.

ROAD ALIVE TO LOCAL POSSIBILITIES

A deal whereby the N. C. & St. L. railroad bought two lots on the old iron furnace property on South Third street was closed last week, and work on a big grain elevator to be owned by that road, has started. The consideration for the two lots was \$6,500, and the elevator will cover those and several other lots the railroad already owned.

The elevator will cost \$20,000 and will have a capacity of 150,000 bushels. It is expected to be completed by Christmas and though owned by the N. C. & St. L. railroad, will be operated by Harth Bros., the grain dealers. The deal for a big grain elevator has been going on for the last six months and culminated last week with the purchase of the two lots on the river.

Facilities for taking the grain off the boats will be completed and the railroad already has its tracks up to the property. Big quantities of grain always have been handled by the

Nice Point of Law Is Raised In Mandamus Case Against Aldermen

Litigation that may define some
duties for the next general assembly
has been started in the Paducah
courts.

Proceedings in mandamus have been instituted by the Paducah Distilleries company in the circuit court to compel the board of aldermen naming the members, and City Clerk Henry Bailey to issue a license to the concern to sell liquor in quantities from one quart to five gallons. The hearing is set for October 31.

City Attorney James Campbell, Jr., will defend the officials. Campbell Flouring represents the plaintiff. The whole case rests on the interpretation of the charter. It fixes a bond for liquor dealers and authorizes the general council to enact rules governing the issuance of licenses. The

Survivors Tell Harrowing Tale of Suffering During Gulf Storm

Key West Fla., Oct. 22.—Survivors from one of the houseboats of the Florida East Coast railway extension along the Keys, tell a harrowing tale of death and destruction during the storm of Thursday.

Houseboat No. 4, on which were 150 men, was struck by the storm at 5 o'clock Thursday morning, and was driven into the gulf through Hawk's channel. At 6 o'clock the houseboat began to break up, and as the great waves hit her, men singly and in

bunches of two and three would be washed into the sea and drowned. Some went below for protection, but when the top of the boat was carried away the waves rushed in and the boat soon went to pieces, 30 or 40 of the men being crushed to death in the collapse. On one piece of timber 16 men were clinging and nine were hanging to another. The side of the houseboat was crowded with men. It turned over three times, each time reducing the number.

TWENTY-SEVEN BOARDING CARS

For Tennessee and Nashville Divi-
sion of Illinois Central.

This morning local Illinois Central officials delivered to Woodstock, Tenn., and to the Nashville division of the Illinois Central the biggest order of boarding cars ever turned out here. There were 27 in the lot. They are made from box cars. Windows are cut and doors made; bunks arranged, and everything for the convenience of section laborers installed. There are several big gangs working on the Tennessee and Nashville divisions, and the order was a "rush" one, and gotten out in a remarkably short time.

Rally Day Observed.

Yesterday was "Rally Day" at the Grace Episcopal Sunday school, and services were held for the occasion at 9:30 a. m. A large Sunday school membership was present and much interest was evidenced.

FROM UNDER HIM.

Skiff Shot and Mr. Scott Went Into
River.

Mr. Will Scott, of the Scott Hardware company, narrowly escaped drowning in the river at the wharf Saturday night while trying to gain shore in a skiff. With Manager Lagerwall, of the American Express company, and Mr. C. J. Abbott, the route agent, went over for a day's sport. They returned to the wharf in skiffs at 10 o'clock. Mr. Lagerwall and Scott were in the same boat and got wedged between barges. The former left the boat and gained the wharf but Mr. Scott pulled on a rope and shot the skiff from under him.

River Man in Gulf Storm.

It is thought that G. D. Runion, a popular marine engineer who formerly ran between Paducah and Evansville, was drowned in the gulf storm last week. He accepted a position on a line of steamers and was engineer on one of the boats which sustained a great loss of life. He is an intimate friend of Wade Brown, deputy U. S. marshal.

Mr. and Mrs. F. J. Bergdoll left Sunday night for Murphysboro, Ill.

AN OPPORTUNITY FOR KENTUCKIANS

Dairy Products Shipped From
North to South.

While Kentucky Does Not Produce
Sufficient for Her Own Con-
sumption.

INTELLIGENT STOCK FEEDING.

Saturday afternoon's session of the farmers' institute was taken up with two lectures. R. M. Allen spoke on "Dairying in Kentucky" and E. S. Goode spoke on "Intelligent Feeding."

Mr. Allen told how a stream of dairy products passed through Kentucky from the north going south to supply the demand there, and not only that, but part of that stream stopped in Kentucky to supply our own demand. We do not produce anywhere near enough for domestic consumption, and yet our product cannot compete in quality with the northern product.

We can build up this deficiency with care. We must first turn out a pure product, for which there is always a strong demand and at best prices. The facilities for doing that could be gotten in the course of time but we must give personal attention to dairying to make it successful. He described methods of handling the milk to prevent bacteria entering it. He advised the abolition of the old-fashioned dasher churn and if a separator is used, it should be the best obtainable, as the cheap ones waste the butter fat. The finished product will sell better if it is put up neatly.

By testing the milk it can be found which cows are not self-supporting and these should be dropped from the herd. It will pay to give attention to the feeding of the cows. Also in cold weather, heat their drinking water, for if they drink it cold, they must use their fat and strength to heat it in their stomachs. Dairying aids the soil by the manure. Kentucky is situated so that we could ship to all parts of the country most cheaply.

Mr. Allen talked about the state college which has an agricultural course, and advised the farmers to send their sons to it for a technical farming education. Many present took catalogues he offered. He said each county was entitled to send four young men free to the state college.

Intelligent Feeding.

E. S. Goode, on the subject of "Intelligent Feeding" showed how a great waste could be avoided by attention to this detail. We take pains to raise good feed then feed it to the cattle in a slovenly manner with much waste. Then we make a mistake in feeding the cattle exclusively on one kind of feed. It is best to mix the feed slightly as in that way all the different fat making ingredients will be given. It is dangerous to put cattle on full feed all at once. One beneficial thing in handling cattle is to be as gentle in the treatment of them as of our horses.

HOME ENDORSEMENT.

Hundreds of Paducah Citizens Can Tell You All About It.

Home endorsement, the public expression of Paducah people, should be evidence beyond dispute for every Paducah reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far-away places. Read the following:

T. W. Woodson, of 40 South Ninth street, painter, employed with C. D. Warren, 408 1-2 Broadway, Paducah, says: "Every painter is more or less troubled with his kidneys on account of the nature of his work. We all know what causes it, but how to remove it is a mystery. I tried lots of medicine and different schemes, but until I procured Doan's Kidney Pills at DuBois, Kolb & Co's drug store and took them I met with very indifferent success. They cured the trouble."

PADUCAH SCHOOL WINS FIRST GAME

Metropolis High Falls Victim
to Prowess of Locals.

Clever Work on Both Sides Makes
Spectacle Interesting to the
Crowd.

TWO HUNDRED SPECTATORS.

The football game Saturday between the Metropolis High school and Paducah High school resulted in a victory for the Paducah boys by the score of 14 to 6. The game was well played and the 200 enthusiasts out fully enjoyed the sport.

Several brilliant plays were made by both teams. For the local boys Elliott made a beautiful 40 yard run; the line bucking of St. John was a feature, as were Virgin's splendid blocking of a kick, and Fisher's drop kick for goal of 30 yards, which gave Paducah a lead of three points. For the visitors Craig, the left half-back, made a spectacular run of 50 yards for a touchdown from a punt.

Metropolis made the first points, but this only encouraged the locals and St. John was pushed over the line for five points. Next Fisher drop kicked and with only a few minutes to finish the game, Cope secured a clean breakaway on a fake play and crossed the goal for Paducah's second touchdown.

The game was devoid of rough plays and not one player was hurt beyond a few minor scratches. The weather was a little warm for the players but made it more pleasant for the spectators.

The boys are encouraged over the support given them financially and negotiations are on with several good teams for a game here Thanksgiving day.

The following was the line-up for both teams:

Paducah High school—Brent Jones fullback; Robert Fisher, right half-back; Felix St. John (captain), left halfback; Robert Halley, quarterback; Clarence Virgin, center; Ed Cave, right guard; Burton, left guard; Gus Elliott, right tackle; Salem Cope, right end; Reuben Bagby, left end. Subs: Edwin Randie, Gregory Harth and Frank Luftenburg. Metropolis—Helm, center; Smith and Roberts, guards; Jacob and Morrow, tackles; Armstrong and Brown, ends; Leonard, quarterback; Roberts and Grace, halves; Evans, fullback. Subs: Morris and Brainard.

HALF HOUR LESS

For Dinner Allowed Men Because of
Early Dusk.

A bulletin was posted this morning fixing a new working schedule in the local Illinois Central car department. The men, will work from 7 a. m. to 12 noon, and from 12:30 p. m. to 5:30 p. m. This gives them ten hours, but cuts off half an hour for dinner. This is necessitated by the early dusk, the officials not desiring to cut the working on account of the amount of work on hand.

BUY YOUR COAL NOW

Coal will advance Nov. 1. Cars are in great demand, and mines find it impossible to get enough empty cars to fill orders. The excessive demand for coal at this time is causing a shortage both in coal and cars and the sooner you get your order placed for your winter coal the quicker it can be delivered.

Delays will be expensive to you, so order now.

HEARST'S FRAUDS TO SECURE NAMES

Shilling Apiece For Petition of League.

Tammany Leaders Come Up With Affidavits Before Election Commissioners.

CANDIDATES MAY BE DROPPED.

New York, Oct. 22.—Charges of the most remarkable frauds have been made by half a dozen district leaders of Tammany Hall against Hearst agents and have been filed in the way of affidavits before the board of elections. It is alleged, and there are volumes of proof to sustain the charges, that petitions for the independence league candidates for the assembly and the senate are practically worthless.

Thomas J. McManus, Tammany leader of the eleventh assembly district, will on Monday present thirty-five affidavits bearing out the contention: John F. Curry, Tammany leader of the thirteenth district, will present 132 affidavits; William Dalton and Peter L. Dooling, co-leaders of the ninth district will have another bunch; W. J. Boyhan, leader of the fourteenth, will have more, and it is said that Maurice Featherston, leader of the twenty-second district will offer others.

The Hearst managers, it is said, paid as a general price for these names 12 1/2 cents apiece and expenses. They did not look closely into the character of the men they sent out to solicit them.

The result is, in the opinion of many lawyers who have made an investigation of the petitions now on file with the board of elections, that many of the candidates will be thrown off the ticket.

AT THE KENTUCKY.

DePew-Burdette Co. Repertory Tonight—The Power of Truth.

Judging from the demand for seats the coming week will see crowded houses at The Kentucky, the DePew-Burdette Stock company is the attraction. Tonight "The Power of Truth" will be presented and it has an especial interest in that it will receive its first local presentation by a stock company. It is a splendid play with a dash of sensational as well as lively comedy on the side, brim full of interesting features, a strong story and plot. A special feature at each performance will be the vaudeville numbers given between each act headed by Miss Mianie DuPree, the champion lady buck and wing dancer of the south.

GRAND DISPLAY AND OPENING OF FINE FUR COATS TOMORROW AND WEDNESDAY. EVERYONE INVITED.

Levy's
PADUCAH

OVER FORTY STYLES OF FUR COATS TO SELECT FROM AND SPECIAL LOW PRICES WILL PREVAIL.

A Premature Display of Fine Fur Coats at Levy's Tomorrow Morning

WE have just gotten a great assortment of Fur Coats in Near Seal, Electric Seal, Pony Skin, Persian Lamb, Astrachan and other kinds. The assortment of coats are here for the sole purpose of pleasing any lady who is desirous of buying a fur coat at any time this fall or winter season. At no time has any store in Western Kentucky ever exhibited a variety of coats like we have now to show. Just think of it—over forty styles and prices ranging from \$18.98 to \$165. We guarantee our coats to give satisfaction and be the newest, latest and most modern in cut and style.

If you had not expected to get your coat so early, and haven't the money to spare, you may select it, make a small deposit on it and we will hold your coat until you are ready to take it home with you.

Not at any other time this season will we have so many styles as we now have. For your benefit, as well as ours, we have made special low prices on these coats. We have done this in order to place in Paducah more coats of fur than has ever been known here in any one season, or even all season combined.

Exhibition begins tomorrow morning and lasts until Wednesday evening at 6 o'clock.

Theatrical Notes

Surprise to Louis James.

Mr. Louis James, the well known actor who is at present touring the west and who played here at The Kentucky early in February, was given a surprise on his sixty-fourth birthday, October 3, by the members of his company including Miss Lillia Lancaster, of this city. The Bozeman, Mont., paper, gives a description of the affair as follows:

The 3d of October (yesterday), was Mr. James' sixty-fourth birthday. His company all went together and gave him a silver loving cup engraved on it the following: "64, good wishes to Louis James, from the company, October 3 1906."

In one scene of the play a boy car-

Miss Minnie DuPree, champion lady buck and wing dancer, with the "DePew-Burdette Stock Company."

ries him a stein of ale and instead of carrying the old one he used the loving cup filled with champagne. No mention was made of it excepting the lines in the play, but the whole audience caught the idea and applauded. After the scene was over Mr. James treated all his company to champagne in his dressing room, which had also been decorated.

The walls were covered with flags and bunting and leaves. Over the dressing tables were two flags crossed and a big picture of Mr. James framed in red, white and blue bunting while at the corners of the picture was a horse show.

Over the door was a bower of mountain laurel with poppies and sweet peas. The electric lights hung in Japanese lanterns and the mirrors all framed in white bunting and tiny flags.

On a small table in the center of the room was a cake with "L. J. 64, 1906" on it in icing, and as many tiny candles around the cake as it would hold, and in the center was a tiny bisque figure of a baby leaning on its elbows. The cake was all lighted when Mr. James came in, when he cut the cake giving each one a slice with a lighted candle. Several newspaper men were invited and partook of the repast wishing Mr. James many more happy birthdays.

Keats liked red pepper on his toast.

THE SCHOOL BOARD.

Republican candidates for school
trustees in Paducah have a platform
adopted at the convention before
they were chosen and to the support
of which they have pledged them-
selves by accepting the nomination.
That platform is to perform the du-
ties of their office with an eye single
to the best interests of the schools,
regardless of personal preferences
and individual concern. Not only did
the convention give special heed to
the demands of the schools, but the
personnel of the school board ticket
chosen is such as to give meaning
and purpose to the declaration of the
party, and as many of the honorable
callings in life are represented as
there are candidates on the ticket.
Such a list of names as this it is dif-
ficult to excel: First ward, J. J. Gen-
try; Second, J. K. Bondurant; Third,
H. C. Hoover; Fourth Dr. C. G. War-
ner; Fifth, Enoch Yarbrow and John
Murray; Sixth, Capt. Ed Farley. To
those acquainted with them they
need no recommendation. You citi-
zens who do not know them should
acquaint yourselves with their rep-
utations. They will bear investiga-
tion.

Discouragement of crime, Sab-
bath breaking and social disorders is
better accomplished by the inexorable
enforcement of the law through the
operations of a just court than by
any other means. The police court
catches crime in its incipency. It's
criminal business is an hundred fold
greater than that of the circuit
court. By its stringent regulations
the criminal element is driven from
the city, disorderly persons re-
pressed and the lives and property
of citizens protected. The best po-
lice force in the world could not
prevent crime, if the police court set

free its prisoners. The peace and
good name of the city depends as
much on the character of the police
judge as on the character of any
other official. In answer to a demand
of many good citizens, who have no
special object to subserve, but who
only ask that the law be enforced,
Hon. E. W. Bagby has consented to
stand for election. His strength lies
with law-abiding, fair-minded people
who want officials with no secret
strings to them.

Complaint has been made, with
how much merit we are unable to
say, that market gardeners daily are
violating the market rules and sell-
ing their products to the grocermen
before the hour fixed in the regula-
tions. The most recent complaint
was made Friday. A man went to the
market Thursday and found a few
turnips on sale for a dime. He
went to the wagon of a gardener, who
had been selling them at 50 cents
the bushel. The gardener had a
load, but said it was sold. He was
seen to deliver it to a well known
grocer and on Friday turnips were
bringing 25 cents the peck. This
whole transaction took place before
the hour fixed in the regulations. If
this wrongful practice is common,
the citizens of Paducah are being
cheated out of a considerable sum of
money. At any rate, the citizens are
entitled to an investigation.

Tammany Leader Murphy, who
accuses the Independence league of
New York of holding up candidates,
has gone before the grand jury with
his charges. We hope politicians
will persevere in the practice of in-
voking the inquisitorial powers of
the state. The grand jury is a great
cleanser, and we have implicit faith
in its purifying properties as applied
to politics.

How it must fret the energetic
Mr. Roosevelt to be tied in Wash-
ington by the cords of conventional-
ity while the Republican managers
seemingly are supinely allowing the
mountebank, Hearst, to romp away
with the election in New York.

Advance notices of a new publica-
tion, designed to fill a dubious want,
called the "Race Question and
Southern Symposium" come from
Atlanta. We feel we can heartily
condemn "The Race Question" be-
fore we see it.

In a game of baseball at Louisville
between two theatrical companies,
called the "Wise Guy" and "His
Last Dollar," the score was 23 to
23. Isn't that always the case when
a wise guy plays his last dollar?

Consider only the record of the
present general council. If it meas-
ures up to your expectations when
you elected it, endorse its record by
re-electing the members whose terms
expire this year.

ist colony is on its feet already.

Irish Question Always Haunts Ses-
sion But May Be Deferred
Again.

M. CLEMENCEAU IN FRANCE

London, Oct. 22.—Parliament
will reassemble next Tuesday with
two serious controversies before it,
and the meeting promises to attract
renewed attention to public ques-
tions.

The session will be marked by
two conflicts, one between the house
of lords and the house of commons
over the education bill, and the other
between the government and the
labor party over the workmen's
compensation bill.

The controversy between the
house of lords and the house of com-
mons over the education bill, espe-
cially in the matter of religious in-
struction, may lead to serious con-
sequences, and possibly cause an ap-
peal to the country.

The Irish question is a slumbering
volcano which may break out at any
moment but there is believed to be
a tacit understanding that it will go
over to the next session for full dis-
cussion.

How the Blood Flow Affects Health.
Few people appreciate the neces-
sity of keeping the blood in every way
in good condition if they would have
good health.

There are two factors in disease,
which, by an endless variety of chan-
ges and combinations define every
departure from normal conditions.

These are the BLOOD and the
NERVES. They sustain life, and
END IT.

The blood must maintain a steady,
swift and equal flow or bad conse-
quences follow. Every organ and tis-
sue must get its right share of blood,
no more, no less. Stop it and the sys-
tem is soon poisoned with accumu-
lated body sewage, and lack of proper
nourishment sets up, headaches,
tired, worn out sensations, no life,
no energy and other kindred ail-
ments follow.

Right the blood flow, and they all
leave.

This is the Osteopathic theory. It
merely goes back to the beginning
of disease. It finds most disease is
associated with an abnormal blood
flow.

Especially during the fall and win-
ter months it is necessary to keep the
blood flow right. Exercise of the
right sort is a good stimulant for
circulation, but the dry hot air treat-
ment, followed by the Osteopathic
treatments, which I am giving with
such marked good results, is the best
treatment yet discovered.

Why? Simply because they go to
the basis.

Come to see me at any time and I
can easily satisfy you that I can soon
build up the run-down system, while
you are attending to your usual du-
ties. I shall, too, be pleased to refer
you to people you know well who are
enthusiastic in their praises of the
treatments.

Leslie Hart went to the residence of his wife, Princess Bird Hart of Kentucky avenue between Third and

disguise and attempted to take away his six-year-old daughter, Thelma. He hastened to Fourth street where he caught a car for the depot intending to escape to Memphis with the child. He was discovered by a postman, who watched the unusual action of the father, and notified Police Captain Harlan. Policemen at the depot were notified and Hart was intercepted before he succeeded in getting away.

* The mother is a daughter of Mr. Mary Bird and works for the Cumberland Telephone company as a change operator. She was away from home when the father called. A divorce proceeding is now pending in circuit court here and the mother has had possession of the child. Harn visited the home yesterday and brought his daughter, Candy. Harn wanted to "nake up" and Mrs. Bird was pleased. He left and some time after stole the child while Mrs. Bird was in the rear of the house.

With Edged Tools

There are some friendships where the intercourse is only the seed which absence duly germinates. Jocelyn Gordon and Jack had parted as acquaintances; they met as friends. There is no explaining these things, for there is no gauging the depths of the human mind. There is no getting down to the little bond that lies at the bottom of the well—the bond of sympathy. There is no knowing what it is that prompts us to say, "This man or this woman of all the millions shall be my friend."

"I am sorry," he said, "that he should have had a chance of causing you uneasiness again."

Jocelyn remembered that all her life she remembered still, and Africa had slipped away from her existence forever. It is one of the mental photographs of her memory, standing out clear and strong amid a host of minor recollections.

"I do not believe," she said, "that you know the risks you are running into. Even in the short time that Maurice and I have been here we have learned to treat the climate of western Africa with a proper respect. We have known so many people who have succumbed."

"Yes, but I do not mean to do that. In a way Durnovo's—what shall we call it?—lack of nerve is a great safeguard. He will not run into any danger."

"No, but he might run you into it."

"Not a second time, Miss Gordon. Not if we know it. Osgood mentioned a desire to wring Durnovo's neck. I am afraid he will do it one of these days."

"The mistake that most people make," the girl went on more lightly, "is a want of care. You cannot be too careful, you know, in Africa."

"I am careful; I have reason to be."

She was looking at him steadily, her blue eyes searching his.

"Yes?" she said slowly, and there were a thousand questions in the word.

"It would be very foolish for me to be otherwise," he said. "I am engaged to be married, and I came out here to make the wherewithal. This expedition is an expedition to seek the wherewithal."

"Yes," she said, "and therefore you must be more careful than any one else, because, you see, your life is something which does not belong to you, but with which you are trusted. I mean if there is anything dangerous to be done let some one else do it. What is she like? What is her name?"

"Her name is Millicent—Millicent Chyne."

"And—what is she like?"

He leaned back and, interlocking his fingers, stretched his arms out with the palms of his hands outward, a habit of his when asked a question needing consideration.

"She is of medium height. Her hair is brown. Her worst enemy admits, I believe, that she is pretty. Of course I am convinced of it."

"Of course," replied Jocelyn steadily. "That is as it should be. And I have no doubt that you and her worst enemy are both quite right."

CHAPTER XIII.

RUMOR met Maurice Gordon almost at the outset of his journey northward. "Smallpox is raging on the Ogowe river," they told him. "The English expedition is stricken down with it. The three leaders are dead."

Maurice Gordon had not lived four years on the west African coast in vain. He took this for what it was worth. But if he had acquired skepticism he had lost his nerve. He put about and sailed back to Loango.

"I wonder," he muttered as he walked up from the beach to his office that same afternoon—"I wonder if Durnovo is among them."

And he was conscious of a ray of hope in his mind. He was a kind hearted man in his way, this Maurice Gordon of Loango, but he could not disguise from himself the simple fact that the death of Victor Durnovo would be a distinct convenience and a most desirable relief.

Thinking these thoughts, Maurice Gordon arrived at the factory and went straight to his own office, where he found the object of them, Victor Durnovo, sitting in consumption of the office sherry.

Gordon saw at once that the rumor was true. There was a hunted, unwholesome look in Durnovo's eyes. He looked shaken and failed to convey a suggestion of personal dignity.

"Hello!" exclaimed the proprietor of the decanter. "You look a bit chippy. I've heard you've got smallpox up at Msala."

"So have I. I've just heard it from Meredith."

"Just heard it! Is Meredith down here too?"

"Yes, and the fool wants to go back tonight. I have to meet him on the beach at 4 o'clock."

Maurice Gordon sat down, poured out for himself a glass of sherry and drank it thoughtfully.

"Do you know, Durnovo," he said emphatically, "I have my doubts about Meredith being a fool."

"Indeed!" with a derisive laugh.

"Yes."

Maurice Gordon looked over his shoulder to see that the door was shut.

"You'll have to be very careful," he said. "The least slip might let it all out. Meredith has a quiet way of looking at one which disquiets me. He might find out."

"Not he," replied Durnovo confidently, "especially if we succeed, and we shall succeed; we shall!"

KENTUCKY WHISKEY MADE IN KENTUCKY

Pure Food Law Established This Fact.

Rules Require Careful Labeling So as to Inform Purchaser What He Is Getting.

AND GUARDS AGAINST POISONS

Washington, Oct. 22.—Secretary Wilson, of the department of agriculture, promulgated the regulations under which the recently enacted pure food and drug act will be enforced.

The section of the regulations respecting the labeling of products requires that the ingredients of the package shall be stated, so that the purchaser may know precisely what he is buying.

In the matter of coloring the requirement is made that no ingredient known to be deleterious to human health shall be used by manufacturers. This regulation applies with particular force to the manufacture of candies.

Adulterations, particularly of drugs, is prohibited, but standard drugs will not be considered adulterated provided that they are branded so as to show their actual strength or purity.

Guards Against Poison.

Poisonous or deleterious preservatives shall only be applied externally, and shall be of a kind that will not permeate to the interior of the product and the preservative must be of such a character that until removed, the food products are inedible. Misbranding of food or drug products is guarded against particularly.

The label on every product must bear the name of the product, the place of manufacture, and must show whether the article is a compound mixture or blend; and must designate the ingredients and proportion in the case of drugs and foods. The use of any false or misleading statement, design or device on the label is specifically prohibited.

The use of geographical names was provided for in cases where it was thought the names were generic or distinctive.

It was provided, however, that it should be indicated on the package containing the product that it was of American manufacture. Thus, champagne is required to be labeled American champagne, or California champagne, so that the purchaser while he knows that he is getting a certain kind of wine knows also that the wine is made in America, and not in France.

The regulations apply to other products in a similar way.

Kentucky Whisky.

Dr. W. H. Wiley, chief of the division of chemistry of the department of agriculture, made a statement with reference to distilled spirits in the rules and regulations for the enforcement of the pure food act:

"No whisky made outside of Kentucky in whole or in part can be called Kentucky whisky. A blend cannot be called by the name of any of its constituents. Blends made in other states cannot be called Kentucky whiskeys."

For 48 hours' fall, 0.5 are not large. The stage this morning was 9.8. Three packets were at the wharfboat but business was light.

The United States steamer Major McKim passed down last night on government business.

The towboat Catherine passed up from Cairo with the two barges for Cincinnati.

The Inverness is in the Cumberland river getting a tow of ties.

The Bernice probably will leave this afternoon for the Tennessee river after ties.

At the ways and dry docks, work is steady. Barges are being repaired at the ways and the Gate City and Antionette are being repaired at the docks.

The City of Saltillo may be expected out of the Tennessee river tonight on the return trip to St. Louis.

The Henry Harley left at 11 o'clock this morning for Evansville, having arrived here Sunday afternoon at 5 o'clock. The Dunbar will come in late tomorrow.

The Butter left at noon today for Clarksville after having laid over here since Sunday afternoon.

The Russell Lord left late Saturday afternoon for the Hatchie river after a tow of ties. The Hatchie river is below Memphis on the Mississippi.

The Clyde will arrive late this afternoon or tonight from the Tennessee river and leave Wednesday evening on the return trip.

There were a good many idle negroes around the wharf this morning and labor could have been had for the asking. When the boats want labor, however, three dollars a day won't find it.

Boat stores and all those lines of business which thrive only when the regular boat business thrives, have had the best summer season this year that was ever known. The number of boats running all the summer has been but a fraction less than in the best season. Hence the demand for boat stores, repairs, and other steamboat necessities has been strong. Not a single towboat has had to stop from low water.

A Louisville dispatch says: The Ohio river board, composed of government engineers having in charge the work of surveying the Ohio river from its source to the mouth, held a short meeting in the office of Capt. Harry Burgess, engineer in charge of the Louisville district, yesterday morning, and then took the steamer Major McKenzie to inspect the Ohio river from the mouth of Green river to the mouth of the Ohio. It will take almost a week to make the inspection. The upper part of the Ohio has been inspected by the board. The members of the board who started on the trip yesterday are: Col. D. W. Lockwood, of New York; Col. E. W. Ruffner, of New Orleans; Col. Clinton B. Sears, of St. Louis; Maj. Geo. A. Zinn, of Wheeling, W. Va.; Maj. William L. Selbert, of Pittsburg, Pa.; Capt. Asylum Employees Accused of Killing Whitley Johnson.

Lexington, Ky., Oct. 22.—Sensational developments are expected in the asylum murder investigation now going on here. A. D. Johnson, of Athol, Ky., a merchant, appeared before the grand jury here yesterday, claiming that his brother, Whitley Johnson, who died at the asylum in August, had been murdered. The body of his brother, he said, was in a fearful condition when it reached Athol, and there were a number of bruises about the head.

Enjoyed Seven-Story Fall.

New York, Oct. 22.—"That fall of seven stories was the finest experience I ever had. The pleasant sensation was the best I have ever enjoyed." The declaration was made to physicians at Bellevue hospital by William Bushnell, 19 years old, after he fell down the air shaft from the seventh floor of the Hotel Seville, Bushnell, who is a plumber's assistant, lost his footing while working in the airshaft. He received a slight bruise on the head and walked to Bellevue hospital to have it treated.

DO YOU KNOW

That Dr. Pierce's Favorite Prescription is the only medicine sold through druggists for women's weaknesses and peculiar ailments that does not contain large quantities of alcohol? It is also the only medicine, especially prepared for the cure of the delicate diseases peculiar to women, the maker of which is not afraid to take his patients into his full confidence, by printing upon each bottle wrapper all the ingredients entering into the medicine. Ask your druggist for this not true.

"Favorite Prescription," too, is the only medicine for women, all the ingredients of which have the unqualified endorsement of the leading medical writers of the several schools of practice, recommending them for the cure of the diseases for which the "Prescription" is sold. Write Dr. R. V. Pierce, Buffalo, N. Y., for a free booklet, and read the numerous extracts from standard medical authorities praising the several ingredients of which Dr. Pierce's medicine is made, and don't forget that no other medicine put up for sale through druggists for domestic use can show any such professional endorsement. This is the only medicine of far more weight and importance than any amount of so-called "testimonials" so conspicuously flaunted before the public, in favor of alcoholic compounds.

The Favorite Prescription cures all woman's peculiar weaknesses and derangements, thus banishing the periodical headaches, backaches, nervous disorders, tenderness and dragging-down sensations in lower abdomen, accompanied by weakening and disagreeable catarrhal, pelvic drains and kindred symptoms.

Dr. Pierce and his staff of skilled specialists may be consulted free by addressing as above. All correspondence is treated as sacredly confidential. By consulting in this way the disagreeable questioning and personal "examinations" are avoided.

WATER CONTRACT TO BE VOTED ON AT THE NOVEMBER ELECTION

REPORT OF JOINT LIGHT AND WATER COMMITTEE ON NEW CONTRACT BETWEEN THE CITY OF PADUCAH AND THE PADUCAH WATER COMPANY.

Owing to the fact that the contract existing between the city of Paducah and the local water company for fire hydrants expires during the current month it was incumbent upon the general council to negotiate for such service covering the remaining period which the franchise of the water company still has to run, to-wit: eighteen years.

After several conferences between the joint light and water committee and the officers of the water company a scale of rates for fire hydrants was agreed upon by the committee and the water company. These rates have been embodied in a contract which will be submitted to the general council for such action as the wisdom of that body may determine. If the proposed contract is favorably acted upon by the general council, it must be submitted to the voters of the city at the next election and affirmatively ratified by not less than two-thirds of the vote then cast upon the question before contract between the city and the water company can be finally executed.

It is therefore worth while for the voters of the city to carefully consider the terms of the proposed contract before casting their votes at the coming election, and if it appears that the proposed contract is to the advantage of the city, then to register their approval thereof upon their ballots.

In order that the voters may have an opportunity to become fully advised regarding the terms of the proposed contract a copy of the same is herewith submitted which reads as follows:

"Section 1. That the City of Paducah, Ky., agrees to rent and does hereby rent from Paducah Water company, its successors and assigns, four hundred and eleven (411) double nozzle fire hydrants now established in said city for a period of eighteen (18) years from the passage and final approval of this ordinance, after an election by the people as hereinafter provided. The annual rental for each of said fire hydrants, which the city of Paducah hereby agrees to pay for the first ten (10) years of said term, shall be twenty (\$20.00) dollars and the annual rental for the remaining eight (8) years shall be fifteen (\$15.00) dollars, unless the said city shall sooner purchase water company's plant, with six (6) per cent interest upon deferred payments. The payments of said rentals shall be made as provided in the original ordinance contract.

"Section 2. All additional hydrants on extensions of mains that may be erected hereafter by the Paducah Water company, its successors or assigns, as provided in the original ordinance contract during the said eighteen years, shall be charged and paid for as provided in section one hereof; but at the expiration of ten (10) years from the time this ordinance shall have been finally approved as set out above, all the then fire hydrants shall be charged and paid for at the uniform rate as above provided and the contract therefor shall expire at the end of the eighteen years fixed in section one.

"Section 3. Before this ordinance shall become effective it shall be submitted to a vote of the qualified voters of the city of Paducah, Ky., at the general election to be held in said city on the 6th day of November, 1906, the said vote to be taken in the manner and as provided by law for the submission of public questions to the voters of said city.

"Section 4. This ordinance shall take effect and be in force from its passage approval and ratification by the qualified voters of the city of Paducah, Ky., and a written acceptance of its terms and conditions by the Paducah Water company filed with the clerk of the city of Paducah, Ky., within ten (10) days after the official certificate of its approval at the popular election."

At the present time the water company has installed for the use of the city 411 fire plugs, which under the old contract are rated and cost each year as follows:

150 fire plugs at \$40.00...\$6,000.00
30 fire plugs at \$30.00... 900.00
231 fire plugs at \$25.00... 5,775.00

Total.....\$12,675.00

Under the proposed contract this same service would cost the city but \$8,220.00 for each of the first ten years of the contract a saving upon the number of hydrants now installed of \$4,455.00 per annum and for the ten year period a saving of \$44,550.00.

For each of the last eight years which the franchise has to run, the cost for 411 hydrants would be \$6,165, a saving to the city of \$6,510 per annum or of \$52,080 for the entire eight years of the franchise, making a total saving to the city between the existing contract and

the proposed contract of \$96,630.

There is nothing contained in the proposed contract changing the rights of the city or those of the water company under the original franchise. The city still retains the right to purchase the water company's plant at the expiration of each five year period in accordance with the terms of the original franchise.

This committee has also compared the rates contained in the proposed contract with those in effect in 127 other cities for the same class of service and finds the proposed rates lower than those paid by any of these cities. The approximate average cost per hydrant in the number of cities mentioned above is \$48.

The rates referred to were submitted by the local water company and this committee assume that the figures are correct. The list of the cities with the rate paid in each is on file with this committee and anyone desiring to verify the figures contained therein may have the opportunity of doing so at any time.

It should also be borne in mind that until a new contract is entered into between the city and the water company, that the rates charged under the existing contract will maintain. The only alternatives offered to escape from the old rates are either to make a new contract or to discontinue the service, the latter, of course, being quite impossible.

NOTICE.

Therefore this committee has no hesitation in recommending to the general council and to the voters of the city of Paducah that the proposed contract be ratified.

Problem of Immigration to Be Solved

THE MOVEMENT IS SUCCESSFUL

Washington, D. C., Oct. 22.—A shipload of European emigrants for the southern states sailed from Bremen, Germany, on October 18, direct for Charleston, S. C. Concerning this new movement for providing the south with much needed laborers, Consul W. P. Atwell writes from Ghent as follows:

"Commissioner E. J. Watson of South Carolina, who is in Europe endeavoring to turn the tide of emigration to America southward, has been in Ghent at the branch office of his department located here. This branch office has been in operation about one year, and conducted in such a manner as to command the confidence of the Belgian authorities.

Commissioner Watson said: "I have long been convinced, as has United States Commissioner-General Sargent, that the only practical solution of what is now rapidly becoming the great immigration problem in the United States rests in the selection and direction of emigrants, as far as possible, at their own homes before they are booked and started to America to be dumped into the congested centers of population without the remotest knowledge of country or conditions or where they are to find the kind of work they are fitted for. This has been resulting in the making of paupers and criminals out of good men, who, had they been landed at the door of opportunity and at points from which they could be readily and easily absorbed, would have quickly become useful members of the body politic.

to restrain the Democratic executive committee from holding the primary to select candidates for state offices and also candidates for United States senator. Judge Galloway held that the abrogation of the rule requiring voters in the primary to disclose how they had voted in the congressional race removed the only objec-

tion which could have been raised to the primary, and that the other grounds on which the Republican attorneys, representing the plaintiff, relied in their suit, are unavailing.

People never get as much enjoyment out of their wickedness as they pretend to.

Cold Weather Coming

WE would like to have you come and see what a wonderful stock of Furniture, Carpets, Curtains, Stoves and Home Furnishings we have to show you. It is to your own interest—it is a duty you owe to yourself—to find out where the best styles, most dependable qualities and lowest prices are to be found. We are confident that after you have seen what we have to offer, and have compared our prices with those asked elsewhere, the rest will be easy and we will be assured of at least part of your patronage. There is no question but that our terms of payment will please you, for any reasonable arrangement that suits you will be satisfactory to us. Come around and make your selections early.
